Adult | Registration required

#hcplmd

Harford County Public Library presents "Genealogy Week! Walk Where Your Ancestors Walked: Virtual Heritage Travel Using AI & Online Resources," a virtual program on January 28 from 6:30 to 8 p.m.

Presenter Lisa Lisson will take participants on a trip to where their ancestors lived. Participants will walk where they walked, and see what they saw. Virtual heritage travel increases understanding of the cultural, political and economic circumstances surrounding ancestors which helps family historians to find ancestors and connect with them on a deeper level. Advanced registration is required at <https://programs.hcplonline.org/event/12107494>.
