Binoculars—8X– power, 21 mm lens

Binocular case

*Binocular Highlights* by Gary Seronik

*The Young Birder’s Guide to Birds of Eastern North America* by Bill Thompson III

Recommended for grades 3 and up
What to Know About This Kit...

Binoculars are an excellent tool for investigation. Most of us think of binoculars as used in nature watching, but they can be used as low power telescopese as well.

The binoculars included in this kit are a quality set of introductory binoculars. They magnify objects about 8X. Simple instructions explain how to adjust the focusing for each individual.

The Young Birder’s Guide covers a common use of binoculars. Binocular Highlights explains how to locate nebulas, galaxies, and colorful stars to examine through the binoculars.
